

Registered Energy Auditors and Energy Audit Firms

In line with the provisions of the Energy Efficiency Act 2011, an energy audit can only be carried out by an energy auditor who is a person certified by such institution as may be prescribed. The Act also provides that certified energy auditors shall be registered with the Energy Efficiency Management Office (EEMO).

Note: as per the definition given in the *Energy Efficiency (Registration of Energy Auditor) Regulations 2016*, 'energy auditor' includes an energy audit firm. Therefore, an energy audit firm need to be registered with the EEMO for the Office to accept energy audits carried out by it.

Hereunder is the list of Energy Auditors registered with the EEMO as at **May 10, 2019**. [Click here](#) for the list of Energy Audit Firms registered with the EEMO. For more details on the Energy Auditors or Energy Audit Firms, click on their respective names.

Disclaimer: Registration with the EEMO shall not be construed as the EEMO endorsing / certifying / acknowledging the qualifications and experience of the Energy Auditors and Energy Audit Firms. Registration with the EEMO was based solely on the information provided by the applicants in their application forms. Any willful misstatement by an applicant may lead to his/her/it's deregistration by the EEMO.

List of Energy Auditors registered with the EEMO

(as at May 10, 2019)
