

Household Electrical Appliances registered with the Energy Efficiency Management Office

(as at April 15, 2019)

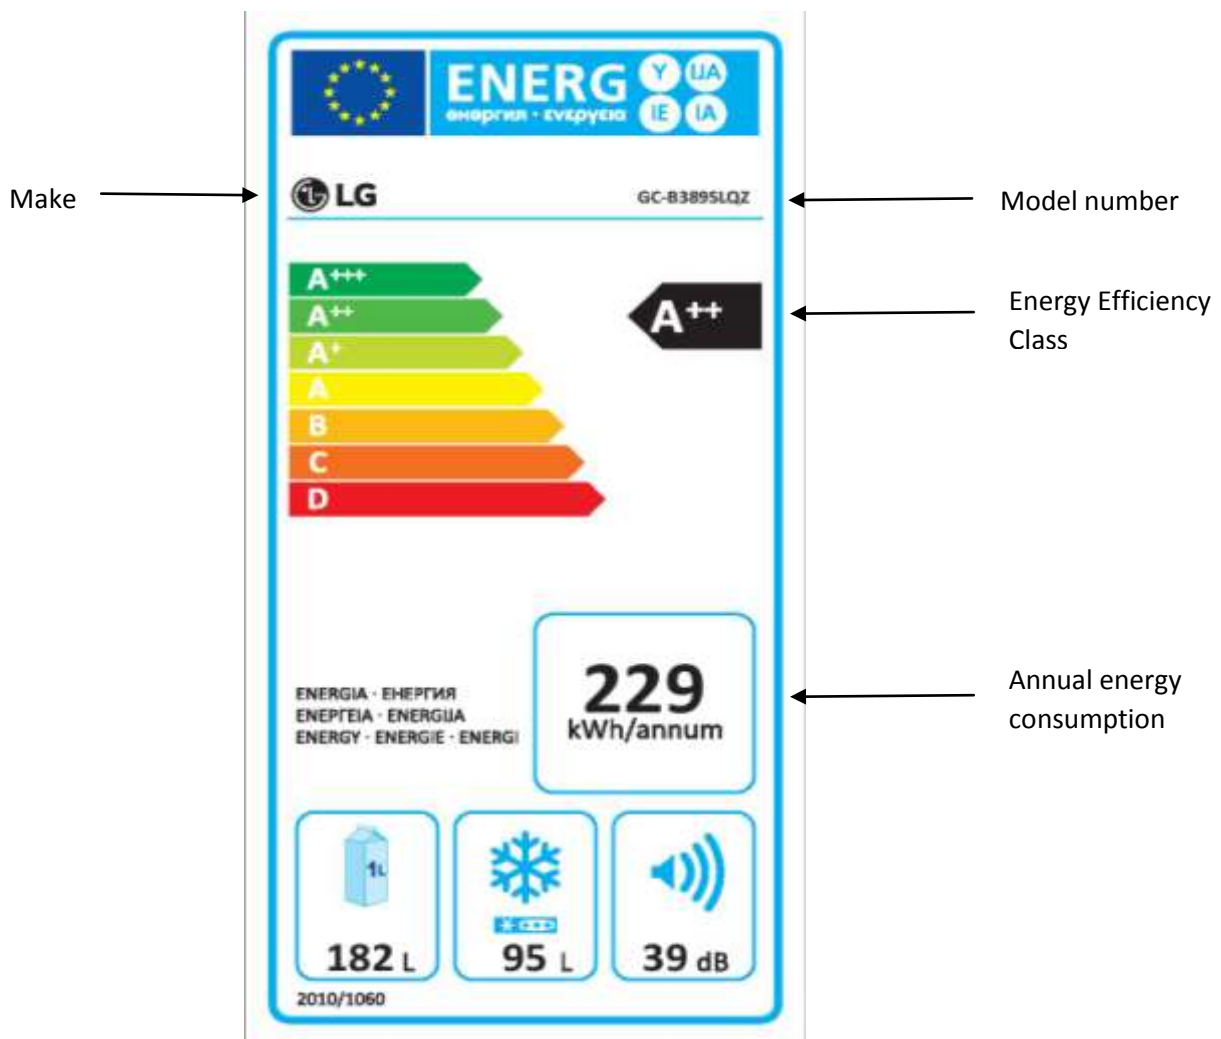

Below is the list of household electrical appliances which have been registered with the Energy Efficiency Management Office under the *Energy Efficiency (Labeling of Regulated Machinery) Regulations 2017*.

The list is provided for the information and convenience of the public in general.

Four important pieces of information/data that would appear on an energy label affixed to an appliance in a showroom are:

- (i) the make;
- (ii) the model number;
- (iii) the annual energy consumption; and
- (iv) the energy efficiency class.

For example, the energy label that would be affixed in a showroom to the first refrigerator in the list below would be as follows:

Note: In case for a specific model of electrical appliance, the information/data on the energy label affixed in a showroom differ from those indicated in the table below, this should be promptly reported to the Energy Efficiency Management Office by email on eemo@govmu.org or by telephone on 206 0582 / 206 0592.

Please do not hesitate to contact the Energy Efficiency Management Office should you require any explanation on energy labels.

LIST OF REGISTERED ELECTRICAL APPLIANCES

Refrigerating Appliance
