

COMMUNIQUE

LIVE PAINTING COMPETITION 2024

The EEMO wishes to bring to the attention of all concerned that the theme of the competition 'Save Energy – Every Action Counts' had been communicated prior to the live painting event to allow the participants enough time to envision their paintings.

The purpose of the live painting event is to allow the participants to translate their ideas and emotions onto canvas, creating visually compelling and meaningful works depicting the theme while ensuring that the drawings are being done by the participants themselves, and is not intended to test the memorising skills of students.

In this context, during the course of the competition, an officer from the EEMO informed all those present that tips on energy saving and energy efficiency can be given to the participants.

An independent jury panel has been set up for the evaluation of the paintings and we remain committed to fostering an environment where equal opportunities are provided to all participants.
