

Communiqué

Energy Efficiency (Minimum Energy Performance Standards for Regulated Machinery) Regulations 2025

The Energy Efficiency (Minimum Energy Performance Standards for Regulated Machinery) Regulations 2025 came into operation on March 01, 2025. The Energy Efficiency Management Office hereby informs all importers of air conditioners that the moratorium period allowed will end on August 31, 2025.

As from September 01, 2025 any person/organisation intending to import air conditioners shall have to:

- 1) register with the EEMO;
- 2) register the model of air conditioner(s) he intends to import with the EEMO.
- 3) produce the registration certificate for the model of air conditioner to Customs as evidence of compliance with the Energy Efficiency (Minimum Energy Performance Standards for Regulated Machinery) Regulations 2025.

A copy of the Energy Efficiency (Minimum Energy Performance Standards for Regulated Machinery) Regulations 2025 and Guidelines to facilitate its implementation are available at <https://eemo.govmu.org/Pages/default.aspx>

Importers are advised to refer to the Guidelines to become acquainted with the registration process.

Importers may contact the EEMO on Tel 206 8070 or through email on eemo@govmu.org for any additional information.
