Energy Efficiency (Minimum Energy Performance Standards for Regulated Machinery) (Refrigerating Appliances) Regulations 2026

The Energy Efficiency (Minimum Energy Performance Standards for Regulated Machinery) (Refrigerating Appliances) Regulations 2026 came into operation on May 01, 2026. The Energy Efficiency Management Office hereby informs all importers of refrigerating appliances that the moratorium period allowed will end on September 30, 2026.

As from October 01, 2026 any person/organisation intending to import refrigerating appliances shall have to:

- 1) register with the EEMO;
- 2) register the model of refrigerating appliance(s) he intends to import with the EEMO;
- 3) produce the registration certificate as an importer of refrigerating appliances; and
- 4) produce the registration certificate for the model of refrigerating appliance to Customs as evidence of compliance with the Energy Efficiency (Minimum Energy Performance Standards for Regulated Machinery) (Refrigerating Appliances) Regulations 2026.

A copy of the Energy Efficiency (Minimum Energy Performance Standards for Regulated Machinery) (Refrigerating Appliances) Regulations 2026 is available at <https://eemo.govmu.org/Pages/default.aspx>

Importers may contact the EEMO on Tel 206 8070 or through email on eemo@govmu.org for any additional information.
